**The operator never sets foot on the slope.**

Radio-controlled from up to 492 ft — the work gets done, the crew stays safe.

Sourcewell

AWARDED SOURCEWELL CONTRACT

Cooperative purchasing for Ohio public agencies — pricing, terms, and delivery already competitively solicited. Satisfies competitive-bid requirements.

CONTRACT NO.

032525-EGN**01 / Strength****ADJUSTABLE CUTTING DECK HEIGHT**

Raise or lower the deck from the remote — higher for dense brush, lower for a clean, even finish. Instant, on-the-go adaptation to the terrain.

02 / Strength**BI-DIRECTIONAL CUTTING**

Cut in either direction for greater efficiency and productivity. No wasted passes, no repositioning — the deck works going out and coming back.

03 / Strength**BUILT FOR STEEP SLOPES**

Patented track-tensioning system and 8" all-terrain tracks deliver traction and stability on hilly areas, embankments, levees, and roadsides.

Technical Data

MACHINE

Maximum slope	61°
Transmission	Hydrostatic
Speed (bi-directional)	0 – 4.4 mph
Brakes	Automatic negative safety
Tracks width	7"
Cutting deck	Single spindle, 2-pivot
Cutting width	40"
Cutting height	3/4" – 4 3/4"
Dry weight	1,411 lbs
Sound pressure (Lwa)	104 dB

ENGINE

Brand	Honda
Type	iGXV800 Stage V
Power	26 HP
Fuel system	Electronic injection

TRACKS & OPTIONS

Width	8"
Standard	Low-profile all-terrain
Optional	Super-rubber high-grip
Anti-derailment	Patented system

SAFETY SERVICES · SAFETY GRANT PROGRAM

GRANT ELIGIBILITY – MOWER EXCEPTION

THE EXCEPTION

Mowers — ride-on/sit-down or robotic; gas, electric, solar, manual or battery powered machines used to cut grass, weeds, or other vegetation — are generally excluded from the program.

Exception: non-ride-on / non-sit-down, non-residential, or remote-controlled robotic mowers specifically engineered for sloped or dangerous terrain greater than or equal to (≥) 15°.

61° The RoboECO is remote-controlled, non-ride-on, and rated to 61° — over four times the 15° threshold.

WHO IT APPLIES TO

Public employers and non-commercial policyholders whose primary business is not landscaping or vegetation control, but who perform incidental grounds or vegetation tasks:

- Cities and villages
- Counties and townships
- Schools and school districts
- Special districts — such as parks and recreation

Source: Eligibility criteria as published by the Ohio Bureau of Workers' Compensation Safety Services Safety Grant Program at bwc.ohio.gov, verified July 26, 2026. Program terms are subject to change — confirm current criteria with BWC before applying.
