DRAINAGE DITCHES

01 / Strength

ADJUSTABLE CUTTING DECK HEIGHT

Raise or lower the deck from the remote — higher for dense brush, lower for a clean, even finish. Instant, on-the-go adaptation to the terrain.

02 / Strength

BI-DIRECTIONAL CUTTING

Cut in either direction for greater efficiency and productivity. No wasted passes, no repositioning — the deck works going out and coming back.

03 / Strength

BUILT FOR STEEP SLOPES

Patented track-tensioning system and 8" all-terrain tracks deliver traction and stability on hilly areas, embankments, levees, and roadsides.
