RapidView IBAK Warranty Service Center

HD

TRUE HIGH DEFINITION
1080p HD & 4K clarity, standard

HIGH-DEFINITION PIPELINE INSPECTION & REHABILITATION

RapidView IBAK

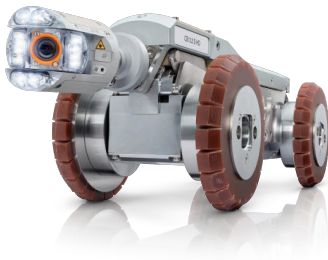

HD camera systems, tractors, cutters and software — from reactive inspection to proactive asset management.

01 Sewer Camera Inspection

Mainline Inspection

- HD tractor systems for gravity mains, mile after mile
- Built to navigate debris and varied pipe conditions
- ORION & ORPHEUS HD cameras for PACP-accurate coding

FEATURED HD CAMERA & TRACTOR

ORION Camera + T-76 Tractor

ORION pan-tilt-zoom head on the T-76 tractor delivers sharp, PACP-accurate footage in mains and laterals alike.

Lateral Launch

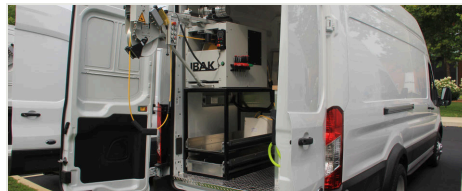

- Launches from the mainline up into the lateral
- Finds inflow & infiltration at its source
- LISY 4 lateral system with the ORION 3 camera

AVAILABLE CHASSIS & TRAILER OPTIONS

Standard E450 Box Truck

Ford Transit

Premium Trailer

Buy RapidView IBAK on Sourcewell

Skip the formal bid process — purchase through cooperative Contract **#080525-RVL**, and BEC handles the paperwork.

02 Compact Systems

MainLITE® HD

MOBILE SYSTEMS

- True HD inspection — no dedicated truck required
- Reaches backyards & off-road easements

EcoTrailer

TRAILERED INSPECTION

- Compact, tow-anywhere inspection platform
- Ready to deploy with minimal setup

KW 206 / KW 306

One-person mobile inspection cart

PIPELINE REHABILITATION

03 MicroGator Cutter Systems

SCAN TO SEE THE
MICROGATOR® GT
IN ACTION

MicroGator® 2.0 · ELECTRIC

- Single-point electric cutter with longer cable reach
- 4th-axis articulation for forward and 360° cuts, with CutterCam®

MicroGator® Air · PNEUMATIC

- Modular pneumatic cutter — pairs with MainLITE components
- Same 4th-axis control; air-curtain wiper keeps the lens clean

Pipeline Scanning & Rehabilitation Planning

One-pass 4K scans give engineers the condition data to score defects and prioritize rehabilitation.

Software & On-Site Support

INSPECTION SOFTWARE

IKAS Evolution

ACTUAL HD FRAME ·
UNRETOUCHED

The **IKAS Evolution Vehicle** license includes every analysis module:

- Map Viewer
- Map Route Assistant
- Defects Measurement
- Tilt Measurement
- Continuous Profile Analysis
- PANORAMO® Analysis SI
- Shape File Import/Export
- Map Editor
- 3D GeoSense
- Laser Deformation Measurement
- Temperature Measurement
- PANORAMO® Analysis Pipeline + SI
- PANORAMO® SI 3D Measurement

ON-SITE LUNCH & LEARN

Schedule a Technical Presentation

BEFORE YOU PURCHASE See the equipment run and get your team's questions answered — no obligation.

WHO SHOULD ATTEND

Operations

Ease of use and day-to-day reliability in the field

Engineering

Data accuracy and PACP defect recognition

Management

ROI, efficiency and long-term asset planning

WHAT WE COVER

- 1 HD clarity** — why clarity drives PACP accuracy
- 2 Inspection systems** — compact, mainline & lateral
- 3 Rehabilitation** — is a cutter truck right for you?
- 4 Proactive data** — laser scanning & IKAS software
